

- Access to computers , and everything that shows how this world works, should be unlimited and total.
- All information has to be free.
- Mistrust authority – promote decentralization.
- Hackers should be judged by their hacking , not by criteria as their look, age, race, gender or social status.
- You can create art and beauty on a computer.
- Computers can change your life for the better.
- Don't mess with private data of others.
- Utilize public but protect private data.
